Introduction

Description

This three-day course is designed for UK civil servants who are taking up roles working in or on Europe, or who aspire to do so. It assumes a basic knowledge of the EU and international diplomacy but no substantial prior experience.

The objective is:

- to explain the range of different competences and policy processes in the EU;
- to identify the main actors and procedures in EU policy making, both for the adoption of EU internal rules that may affect UK interests, and in the EU's external action;
- to outline how non-EU countries can shape EU policy outcomes, including through non-state and informal channels;
- to summarise the new legal and institutional framework for UK-EU relations, and how they operate in practice

to consider how the UK may interact and work together with the EU on global issues, in line with the government's Global Britain ambitions.

This training is conducted using the Chatham House Rule. Participants are free to use the information received, but neither the identity nor the affiliation of the speaker(s), nor that of any other participant, may be revealed. Therefore, any potentially sensitive topic discussed during the training will not be discussed further.
